Allowable Subject Matter

Claims 1-39 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest a color forming composition comprising a leuco dye, a metal salt activator, a suppressing agent and an initiator precursor, nor an optical recording medium comprising the composition. The closest prior art, US 5,672,560 or US 3,900,218 disclose color forming compositions with stabilizers or desensitizers for pressure sensitive recording. US 2003/0108708 discloses a DVD with a label composition formed of a leuco dye. However, none of the cited art discloses the specific composition claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
